8. *Takes note* of the progress in the creation of a central repository of information on operational activities for development, and requests the Secretary-General to ensure that an update on the advances in the establishment of that mechanism be presented at the substantive session of the Economic and Social Council in 2011 in the context of the comprehensive policy review of operational activities for development;

Independent system-wide evaluation mechanism

11. *Recognizes* that the current multi-tiered evaluation system of operational activities for development within the United Nations consists of a number of entities with distinct roles and responsibilities, including the United Nations Evaluation Group, the evaluation offices of individual United Nations organizations, the Office of Internal Oversight Services, the Department of Economic and Social Affairs and the Office for Coordination of Humanitarian Assistance of the Secretariat and the Joint Inspection Unit;

Approval of common country programmes

14. *Emphasizes* the principle of national ownership and leadership, and supports the initiative of some countries to use, on a voluntary basis, common country programme documents, as well as the decision of these countries that wish to continue using the existing frameworks and processes for country-level programming;

15. *Recognizes* that local consultative processes could strengthen the principle of national ownership and facilitate effective participation of national policymakers in setting the priority areas of common country programmes;

16. *Invites* those countries presenting a common country programme document on a voluntary basis to prepare it consistent with the United Nations Development Assistance Framework, where it exists, and to present in the common country programme the critical actions that will be taken to achieve the agreed results with available or indicative resources, as well as actions to ensure coherence of the assistance provided by the United Nations system at the country level, attaching, as an annex, a brief description of the agreed results and indicative resources for relevant United Nations agencies;

19. *Recognizes* that informal discussions during the joint meeting of the Executive Boards of the United Nations Development Programme/United Nations Population Fund, the United Nations Children's Fund and the World Food Programme on cross-cutting issues, synergies, gaps and duplication, including those related to common country programmes, could provide a useful context for the work of the individual funds and programmes at the country level;

"Delivering as one"

20. *Welcomes* the intergovernmental meetings of programme country pilots held in Kigali, in October 2009, and in Hanoi, in June 2010, takes note with appreciation of the Kigali and Hanoi declarations, and in this regard also takes note of the progress made by "delivering as one" countries in their own country-led evaluations, with the participation of relevant stakeholders and with the technical support of the United Nations Evaluation Group, to be completed by 1 July 2010;

21. *Encourages* the Secretary-General to proceed with the modality for the independent evaluation of lessons learned from the delivering as one pilots, as outlined by the Secretariat, after consultation, covering all aspects of the initiative, and looks forward to receiving the outcome at the sixty-sixth session of the General Assembly;

Improving the funding system of operational activities for development of the United Nations system for enhanced system-wide coherence

General principles

22. *Acknowledges* efforts by developed countries to increase resources for development, including commitments by some developed countries to increase official development assistance, calls for the fulfilment of all official development assistance commitments, including the commitments by many developed countries to achieve the target of 0.7 per cent of gross national income for official development assistance by 2015 and to reach at least 0.5 per cent of gross national income for official development assistance by 2010, as well as the target of 0.15 per cent to 0.20 per cent for least developed countries, and urges those developed countries that have not yet done so to make concrete efforts in this regard in accordance with their commitments;

23. *Welcomes* the growing number of countries making financial contributions to the operational activities of the United Nations development system, as well as the diversification of funding sources and mechanisms within the system, and also welcomes, in this regard, the significant growth in funds contributed to United Nations development operations, from $13 billion in 2003 to $22 billion in 2008, the highest level ever;

24. *Stresses* that core resources, because of their untied nature, continue to be the bedrock of the operational activities for development of the United Nations system, notes with concern in that regard the long-term decline in the share of core contributions to the United Nations development system, which, since 2005, has

levelled off at about 34 per cent, and recognizes the need for organizations to attain, on a continuous basis, an adequate balance between core and non-core resources, taking into account the unique mandate structure and programmes of individual entities, while noting that non-core resources represent an important supplement to the regular resource base of the United Nations development system to support operational activities for development;

25. *Emphasizes* that increasing the financial contributions to the United Nations development system is key to achieving the internationally agreed development goals, including the Millennium Development Goals, and in this regard recognizes the mutually reinforcing links between increased effectiveness, efficiency and coherence of the United Nations development system, achieving concrete results in assisting developing countries in eradicating poverty and achieving sustained economic growth and sustainable development through operational activities for development and the overall resourcing of the United Nations development system;

26. *Stresses* the need for adequate quantity and quality of funding for operational activities as well as the need to make funding more predictable, effective and efficient;

27. *Affirms*, in this context, the importance of accountability, transparency and improved results-based management and further harmonized results-based reporting on the work of the United Nations funds, programmes and specialized agencies for increased quantity and quality of funding for operational activities;

Ensuring adequate funding

28. *Stresses* that funding for operational activities should be aligned with the national priorities and plans of the programme countries as well as the strategic plans, mandates, resource frameworks and priorities of the United Nations funds, programmes and specialized agencies, and underscores, in that regard, the need to further strengthen the results-based frameworks of funds, programmes and agencies of the United Nations development system and for the agencies, funds and programmes to improve their reporting on outputs and nationally owned outcomes;

29. *Emphasizes* the importance of taking measures to broaden the donor base and increase the number of donor countries and other partners making financial contributions to the United Nations development system in order to reduce the reliance of the system on a limited number of donors;

30. *Recognizes* the potential positive impact of determining the level of "critical mass" of core funding for United Nations development agencies, and notes, in that regard, that the concept of critical mass may include, inter alia, the level of resources adequate to respond to the needs of the programme countries, and to produce the results expected in strategic plans, including administrative, management and programme costs;

31. *Invites* the governing bodies of the United Nations funds and programmes to initiate further discussion with a view to exploring the most appropriate definition of, and a process towards arriving at, a critical mass of core funding for each fund and programme, according to their individual mandates;

32. *Invites* the governing bodies of the relevant specialized agencies, within the context of their 2012-2013 budgets, to consider exploring the most appropriate concept of and process for arriving at a critical mass of core funding, according to their individual mandates;

33. *Requests* the funds and programmes to report on their efforts and conclusions on critical mass in their annual or biennial reports to the Economic and Social Council, beginning in 2011, and in that regard encourages the specialized agencies, where relevant, to report on their efforts and conclusions on "critical mass" to the Council;

Improving the quality of funding

34. *Urges* Member States, when legislative and budgetary provisions allow, to make financial contributions to development-related activities of the United Nations system in the form of multi-year commitments in order to improve the predictability of resources;

35. *Urges* all Member States making non-core contributions to operational activities, as well as to the United Nations funds, programmes and specialized agencies, to ensure that these resources are fully aligned with strategic plans and mandates and are in accordance with the priorities of the programme countries within the United Nations Development Assistance Framework;

36. *Urges* the executive boards of the United Nations funds and programmes and the governing bodies of the specialized agencies to take measures to improve their governance and oversight of programme and project-specific non-core funding by including in their annual reports an assessment of how such funding is aligned with the strategic plans of the respective organizations;

37. *Requests* the Secretary-General to include information on all existing multi-donor trust funds and thematic trust funds, including information on their mandates, performance and governance structures, in the annual report on financial statistics to the Economic and Social Council, with a view to further improving the participation of Member States in their governance;

38. *Requests* United Nations agencies administering multi-donor trust funds to report on the administration of those funds to their respective governing bodies on an annual basis in order to ensure better complementarity between funds provided through multi-donor trust funds and other funding sources;

39. *Acknowledges* the ongoing efforts being undertaken by the United Nations Development Group with a view to avoiding the subsidization of non-core resources by core resources, in that regard requests the United Nations funds and programmes, and urges the specialized agencies, to avoid using core/regular resources to cover costs related to the management of extrabudgetary funds and their programme activities, and urges Member States making non-core contributions to reduce transaction costs and streamline reporting requirements, where possible;

Improving information to monitor funding trends

40. *Takes note* of the improved reporting on funding for operational activities of the United Nations development system, and requests that further improvements be made in order to more accurately reflect the diversity in non-core funding

streams, such as multi-donor trust funds, including funds pooled at the global, regional and country levels;

41. *Requests*, in this regard, that future reporting on funding for the United Nations development system more clearly distinguish between funding for development and funding for humanitarian activities, and better differentiate self-supporting contributions from other non-core funding flows;

42. *Requests* the Secretary-General to report on the predictability of funding for the United Nations development system, including the impact of rapid growth in non-core contributions compared to core funding, significant exchange rate fluctuations and the limited use of multi-year pledges, in the annual report to the Economic and Social Council on the results achieved and measures and processes implemented in follow-up to General Assembly resolution 62/208, to be considered by Member States in the context of the comprehensive policy review of operational activities for development of the United Nations system;

Harmonization of business practices

43. *Notes* the submission of the information provided by the United Nations System Chief Executives Board for Coordination regarding the progress made in the area of simplification and harmonization of business practices within the United Nations development system;

44. *Reiterates* that the objective of the simplification and harmonization of business practices within the United Nations development system is to harmonize and simplify rules and procedures wherever this can lead to a significant cost savings and/or reduction in the administrative and procedural burden on the organizations of the United Nations development system and national partners, bearing in mind the special circumstances of programme countries, and to enhance the efficiency, accountability and transparency of the United Nations development system;

45. *Encourages* the United Nations funds and programmes to identify additional efficiency savings, including at their headquarters, through common strategies and common operations, for example in the fields of human resources management, information technology and administration, while ensuring that such common strategies and operations are consistent with relevant intergovernmentally agreed policies, including those related to the United Nations common system, and to take into account the ongoing reforms on administrative and budgetary matters, and recommends, in that regard, that they submit annual reports on progress to their respective governing bodies and, as appropriate, keep the General Assembly abreast of such progress through their respective reporting processes to the Economic and Social Council;

46. *Reiterates its call* upon the United Nations funds, programmes and specialized agencies to ensure, to the extent possible, that savings resulting from reductions in transaction and overhead costs accrue to development programmes in the same countries;

47. *Stresses* that simplification and harmonization of business practices within the United Nations development system, including in the field of procurement, shall be in compliance with relevant intergovernmental mandates, including those established by the General Assembly;

48. *Requests* the Secretary-General, in consultation with the United Nations System Chief Executives Board for Coordination to brief the Economic and Social Council regularly on progress made and challenges encountered in the simplification and harmonization of business practices and to refer any matter requiring an intergovernmental decision to the relevant intergovernmental bodies;
